

Fighting the world's most dangerous pathogens and toxants

- **Effective** against pathogenic bacteria *Staphylococcus aureus* (including MRSA *Staphylococcus*), *Salmonella choleraesuis*, *Pseudomonas aeruginosa* and Vancomycin-Resistant *enterococcus faecalis*
- **Inhibits** and **Retards** the growth of mold, mildew and fungus
- **Proven** to be **effective** against Norovirus
- **Cleans** and **controls** Mold Growth on porous and non-porous surfaces
- Cleaner, Mildewstat, Fungicide, Disinfectant, Virucide, Algacide and Deodorizer
- **Used** in **Schools, Hospitals, Homes and Commercial facilities**
- Effective in the presence of background contamination

Partial List of Threats Eliminated/Neutralized by BIO-RESCUE (confirmed by Independent Lab Tests):

Staphylococcus aureus, Methicillin Resistant *Staphylococcus aureus* (MRSA), *Salmonella Choleraesuis*, E-Coli (O157:H7 and ESBL), Avian Influenza (Bird Flu), Norovirus, *Clostridium difficile* (C-Diff), *Proteus mirabilis*, Vancomycin-Resistant *enterococcus faecalis*, *Enterobacter aerogenes*, *Listeria monocytogenes*, *Klebsiella pneumoniae*, *Pseudomonas aeruginosa*, Norovirus (Norwalk virus), Influenza A & B, Hepatitis B & C, Bovine Coronavirus, Foot & Mouth Disease, Bovine enterovirus, Mycotoxins, *Bacillus globigii*, MS-2/T-4 Bacteriophages, Mold spores and mildew. BIO-RESCUE has been demonstrated to be fungicidal against *Trichophyton mentagrophytes* (Athlete's Foot), *Aspergillus niger* and *Penicillium varibile*. BIO-RESCUE has been shown to be bactericidal in the presence of 5% serum contamination, and meets the requirements of hospital use.

The patented technology in BIO-RESCUE was developed to be used against the most toxic chemicals known, including Anhydrous Ammonia, Chlorine Gas, Butyl Isocyanate, Malathion and Hydrogen Cyanide, as well as chemicals typically used as WMD's such as VX, Soman (GD), Mustard (HD), G Series Nerve Agents, Sarin, Ricin, Phosgene Gas, Anthrax – Ames RIID, Anthrax-ANR-1, and Y. Pestis (Plague). BIO-RESCUE is also a very effective deodorizer, eliminating or neutralizing the worst of odors.

BIO-RESCUE is a revolutionary product, based upon superior technology developed and patented by Sandia National Laboratories. BIO-RESCUE is commercially manufactured using the formula licensed by Sandia National Laboratories. This patented formula is registered with the US EPA. The National Laboratories Programs develop science-based technologies that support national security. These technology solutions are designed to solve national and global threats to peace and freedom. BIO-RESCUE's unique aerosol delivery system is also patented.
